

FlashStart[®]
cloud

The **Web Filter** in the **Cloud**

The Cloud Technology

The Web Filter is completely cloud-based

Flash-Start Cloud is a simple Web filter which works completely in Cloud. It doesn't require any specific hardware. Just connect your "push-device" and your web surfing will be safe.

Benefits for everyone

For **Companies** and **Public Administration**

- **filters** out sites unsuitable for the working activity
- **blocks** infected sites that cause Computer problems
- **eliminates** the loss of time during working hours
- **reduces** the legal risks of uncontrolled web surfing

For **Schools**

- **filters** and protects students (WIFI included) from Internet dangers
- **protects** the customer from legal risks linked with a wrong use of the web
- **blocks** the access to infected sites, that may cause problems to the Computers of the Network

Opportunity for resellers

- **protects** and promotes customer loyalty
- **guarantees** a constant profit over time
- **supervises** the customer installations of Flashstart for 24 hours a day seven days a week
- the simple interface makes it user-friendly for everybody
